HURRICANE DORIAN CREATES HUMANITARIAN CRISIS IN BAHAMAS
Please Help Now! Financial Support Needed to Purchase Fuel and Supplies

[Springdale, Arkansas, September 2, 2019] According to the National Hurricane Center's 11 a.m. ET advisory, Hurricane Dorian continues to pound the Bahamas. This storm is catastrophic and devastating. The 185 mph (160 knots) sustained wind at landfall on Great Abaco in the northwest Bahamas yesterday afternoon tied for the strongest winds at landfall on record in the Atlantic Ocean.

Because it is also projected to impact the South Eastern part of the United States, emergency response support from the US may be delayed.

As a result, Medical Evacuation Disaster Intervention Corps (MEDIC) has dispatched several aircraft including fixed wing and helicopter and a volunteer emergency response team of cross-trained specialists to the area.

The team is already coordinating rescue efforts with the appropriate Bahamian authorities to provide emergency response to impacted residents in the Bahamas.

The expected cost of this short-term rescue mission is projected to be \$15,000 - \$20,000. Any financial support provided will be used to purchase fuel and supplies in support of rescue efforts.

To join us in this effort please visit our website mediccorps.org and donate!

About MEDIC Corps

Medical Evacuation Disaster Intervention Corps is a Christian, non-profit rescue organization that provides medical evacuation assistance and logistical support in times of crisis. The organization also partners with in country healthcare providers, first responders, hospitals, corporations, governmental entities, community leaders, churches and other relevant organizations to build and strengthen permanent, sustainable solutions to emergency situations.
